Dear Mr. Ashcroft:

I am writing you today to express my opinion in regards to the settlement that was reached with Microsoft in November. I believe this settlement is fair and vital to improving our economy.

Under this agreement, Microsoft must share more information with other companies, create more opportunities for other companies, and give consumers more choices. Microsoft has agreed to create future versions of Windows that will make it easier to install non- Microsoft software. Microsoft must also share software books and codes, and a technical oversight committee has been created to oversee Microsoft compliance to this agreement. These stipulations make it clear that this settlement is fair, and not simply a cakewalk for Microsoft.

Thank you for making the right decision and considering public comment on this issue.

Sincerely,

Margarita Caicedo
